**POLICY SUMMARY**

This policy designates those authorized to review, authorize, and sign contracts and agreements for Buffalo State College (College) and the Buffalo State College Foundation (BSCF)

**POLICY****Policy Statement**

To protect the assets and reputation of the college, all proposed contracts and agreements must be submitted to the College Procurement and Contracts Office for review, risk assessment, and authorization. If the proposed contract or agreement requires review by the Office of the Vice President for Finance and Management and/or the appropriate legal counsel, the Procurement Office may pursue those reviews at its discretion.

The Procurement and Contracts office will ensure such documents comply with any and all applicable campus, SUNY, state, Foundation, and other regulations. The College Procurement and Contracts Office will route to the AVP for Administrative Services, Vice President for Finance and Management, and/or legal counsel as appropriate.

Any contract or agreement that originates in a department must first have the review and approval of the area supervisor/department chair before being submitted to the College Procurement and Contracts Office for review.

Departments are asked to submit such documents with maximum possible lead time, preferably at least several weeks; however, in the event something needs to be expedited, please clearly state the rationale for expediting upon submission.

All software, including freeware, is associated with a contract and/or an agreement and requires additional review. Additional lead time is necessary for the review of software and other technology requests; depending on the nature of the request, this process can take up to 6 months or longer in addition to the time necessary for authorization as stated in this policy. See the [Information Technology Purchases/Acquisitions Policy](#) for more information.

Once reviewed and approved, the College Procurement and Contracts Office will route for authorization, signature and submission to the vendor.

No member of the campus community should sign or otherwise authorize a contract or agreement until it is routed through the College Procurement and Contracts Office.
