POLICY SUMMARY

The purpose of this policy is to ensure that SUNY Buffalo State administrative policies are established appropriately and made available to the college community.

POLICY

Policy Statement

SUNY Buffalo State formally develops, issues and maintains its official administrative policies. Such administrative policies must be formulated, reviewed, maintained, disseminated and otherwise made available to the campus community in order to promote accountability and compliance.

Buffalo State maintains its official administrative policies in an online policy library. Approved administrative policies of the college should not be independently published or re-published on departmental websites. Instead, departmental websites should link to the Buffalo State administrative policy library when references to administrative policies are made.

Administrative policies should be accessible, understandable, uniformly presented and routinely maintained so that college faculty, staff and students may use them as guidance for their regular activities and operations. In addition to providing guidelines for the campus community, such policies also document how SUNY Buffalo State conducts its business.

This policy applies to administrative policies of the college. This policy does not apply to academic (pedagogical, research, curriculum, governance, etc.) or student affairs matters or policies at SUNY Buffalo State. This policy also does not apply to SUNY Buffalo State (internal) departmental, office or unit policies. Such (internal) departmental, office or unit policies may not conflict with official administrative policies, but they may be more restrictive.

Applicability

SUNY Buffalo State employees engaged in developing and maintaining official administrative policies must follow the procedures and requirements outlined herein.
